

REGENCY PLASTICS

EXTRUDERS & CONVERTERS OF POLYETHYLENE FILM

WWW.REGENCYPLASTICS.COM

About Us

Regency is a family owned and operated company that has been in business for over 60 years.

During this time Regency has become Canada's primary supplier of polyethylene packaging from coast to coast, as well as being a significant force within the USA.

As a part of our company's philosophy we promote open communication and direct collaboration between management and our skilled workforce. This allows us to swiftly adapt to industry changes, customer demands, and technological advancements, ensuring that we consistently deliver products that meet and exceed customer's expectations.

OUR STRENGTHS

FOCUS & PHILOSOPHY

Our focus for over 60 years has been to meet & exceed our customers' expectations both in terms of quality and service. We tailor our products to accommodate any specification relevant to your industrial needs; flexible packaging done your way.

CUSTOMER SERVICE

Our sales team is trained to offer support & knowledge to our customers and distributors, both in terms of product design and the latest in resin and film technology.

RELATIONSHIP BUILDING

At Regency, we understand that building long-term relationships is key to ensuring customer satisfaction.

OUR EXPERTISE

Our product lineup includes an array of polyethylene solutions tailored to your exact specifications. Whether you require top sheets, shrink film, bag liners, poly tubing, PTO bags, plastic sheeting, flat bags in a box, poly mailers, wicket bags, or other custom items, we have the expertise to manufacture them with precision and efficiency.

Quick Delivery

We maintain a ready stock of popular industrial standard items that allow us to provide fast delivery for urgent needs, ensuring your operations continue smoothly without delays.

Made-To-Order Excellence

We understand the uniqueness of each project, and that's why every item is customized to fit your individual requirements, ensuring optimal performance and functionality for your specific applications.

Competitive Pricing

Despite our commitment to excellence, we also take pride in offering competitive pricing, making our solutions not only top-notch but also cost-effective.

Certifications

Certifications & Quality Assurance

Each certification showcases our commitment to excellence and compliance within their respective domains. Beyond certifications, we employ a robust quality assurance process throughout our manufacturing journey.

GREEN COMMITMENTS: OUR ECO-FRIENDLY INITIATIVES

At Regency Plastics, we take our responsibility towards the environment seriously. We are dedicated to implementing sustainable practices and eco-friendly initiatives to minimize our carbon footprint and contribute to a greener future.

REDUCING PLASTIC WASTE

We employ cutting-edge manufacturing techniques to ensure minimal material waste, and we continuously explore innovative solutions to maximize the efficiency of our processes.

100% FOOD-GRADE RESIN

Our polyethylene films and poly bags are manufactured exclusively from 100% food-grade resin. This ensures that our products are safe for direct food contact and comply with the strictest health and safety standards, making them suitable for various food packaging applications.

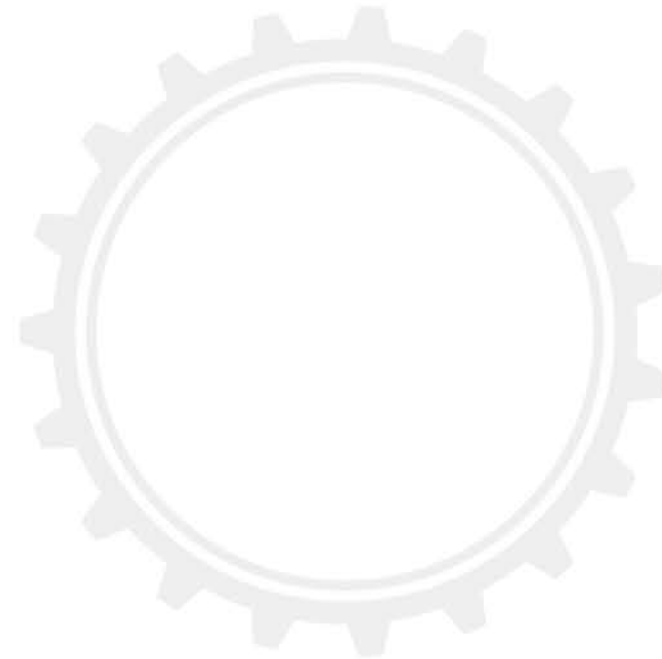

RECYCLE #4

Regency Plastics supports sustainable waste management through our use of Recycle #4 materials. Recycle #4, also known as low-density polyethylene (LDPE), is widely recyclable and plays a significant role in reducing plastic waste in landfills. By using Recycle #4, we contribute to the circular economy and promote a greener, more eco-conscious approach to plastic utilization.

SOME OF THE INDUSTRIES WE SERVE:

- E-commerce
- Construction
- Furniture
- Mattress
- Foam
- Food Packaging
- Textiles/Gerber Film

- Automotive
- Pharmaceutical
- Plastic Molders
- Lumber
- Metal Production
- Publishing
- Agriculture

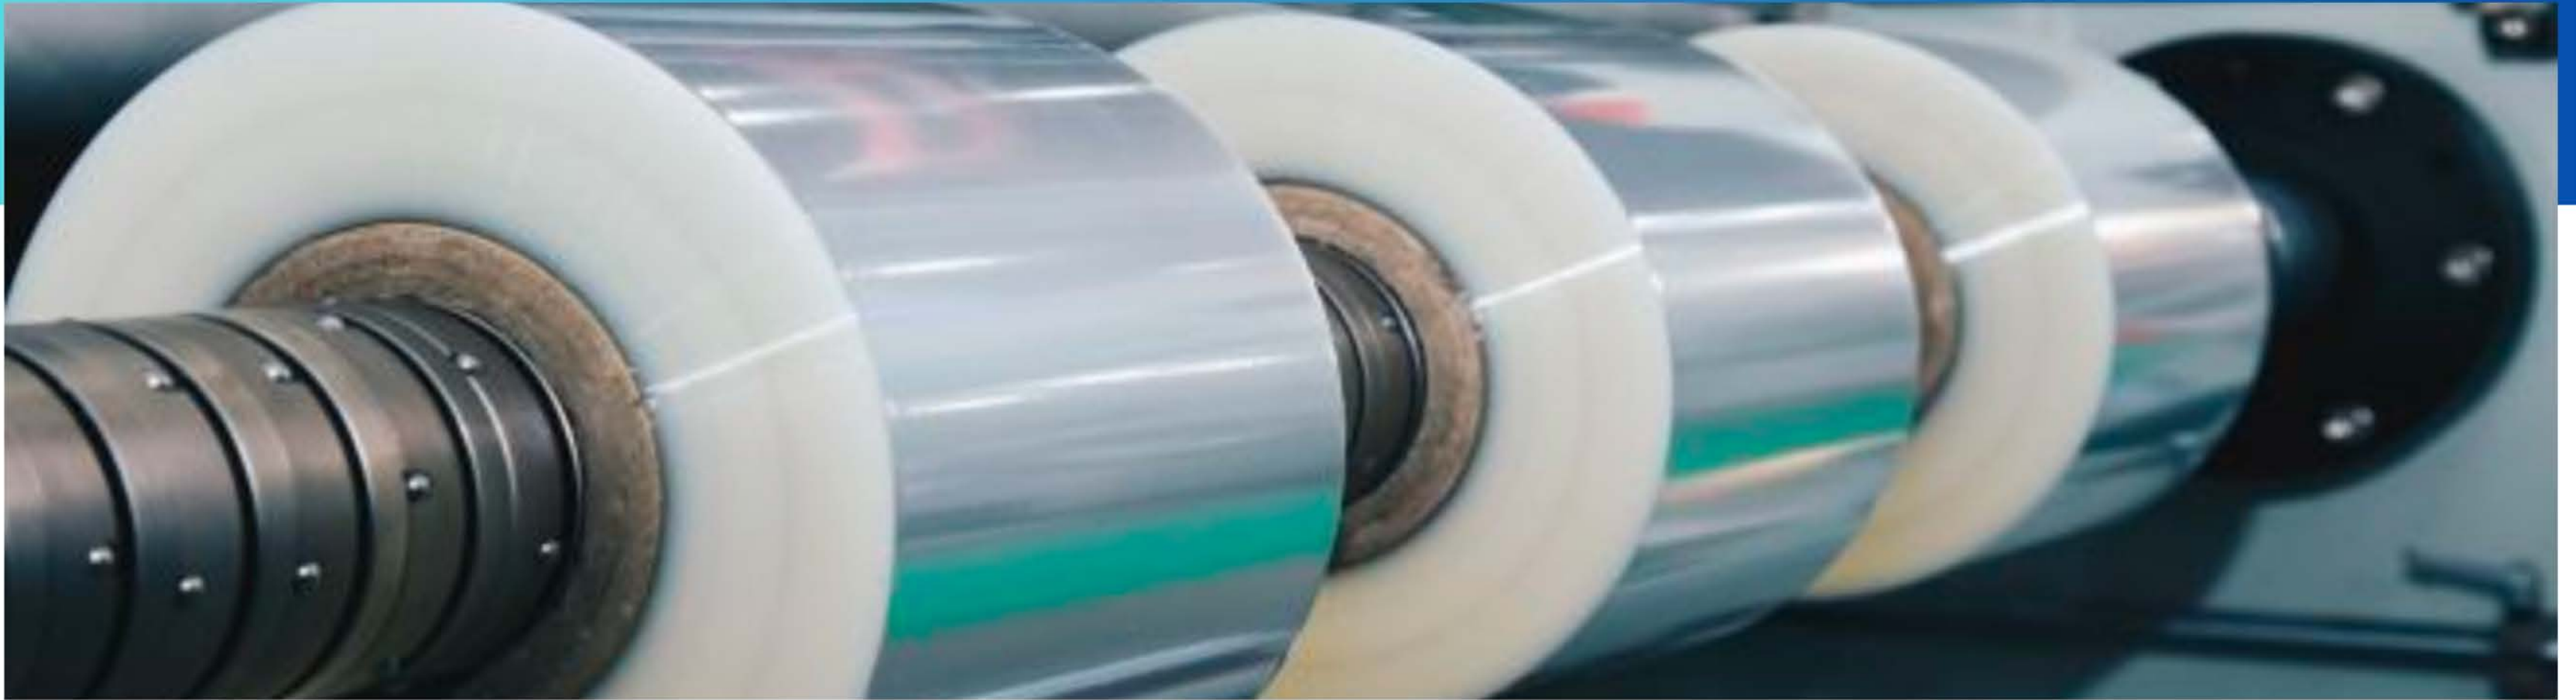

RAW MATERIALS & ADDITIVES

FILM TYPES

Butene	Hexene	Octene	Metallocene	High Clarity	Shrink
High Density	MMW	EVA	Co-Ex	Gas Flush	CCMC (CGSB) / Vapour Barrier

ADDITIVES

UVI	Anti-Block	Anti-Stat	Color
VCI (Vapour Corrosion Inhibitor)	Biodegradable	Flame Retardants	

LDPE/LLDPE Gauge

.75 mil to 10 mil

HDPE Gauge

.5 mil to 7 mil

Slip Level

High, Regular, Medium and Low slip

Corona treated film for printing & lamination

Vent Holes

1/8" to 7/16" vents,
microvents/pinholes, ventilation silts

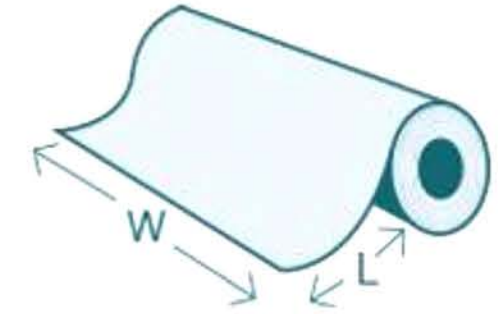

OUR EXTRUSION DEPARTMENT

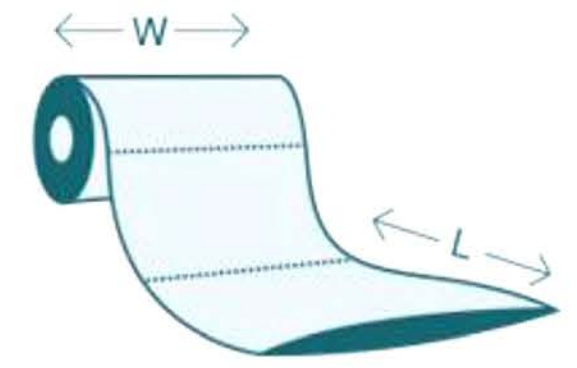

TUBING:

Width: 12" up to 150" lay-flat width, and gusseted up to 192" wide (16')

SHEETING:

Width: 8" up to 150" single wound lay-flat width, and gusseted up to 384" wide (32')
*Multiple folding options available

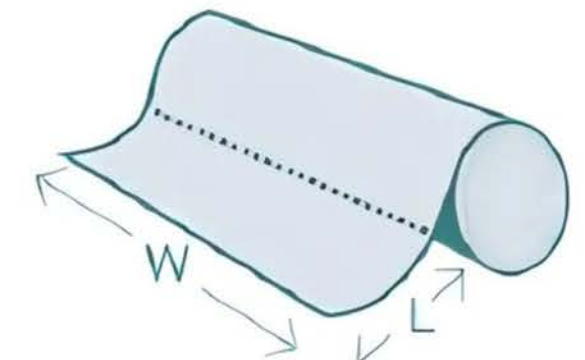

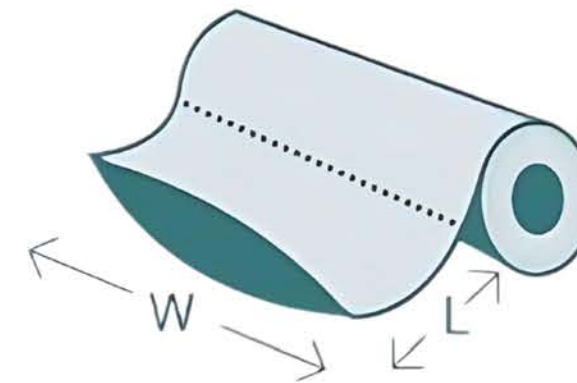

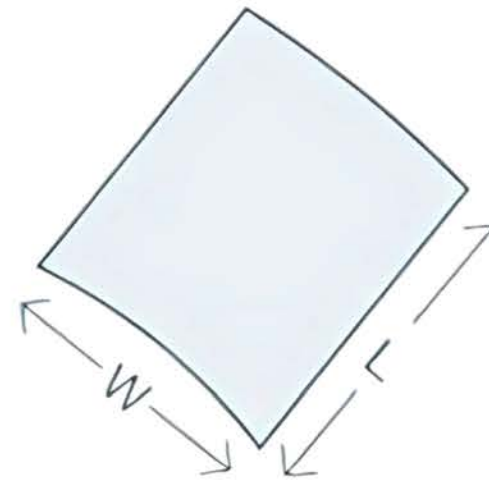

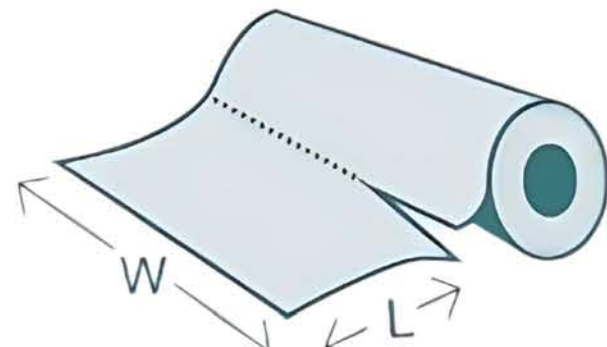

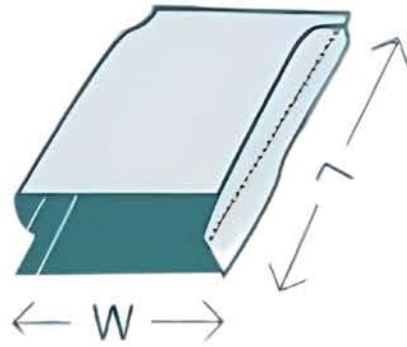

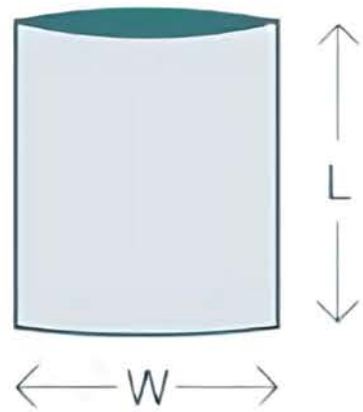

PTO BAGS (BOR):

Width: Bottom sealed - 12" up to 98" lay-flat width, and gusseted up to 192" wide
Side sealed - 12" up to 360" lay-flat width
Length: Bottom sealed - 12" up to 360" long
Side sealed - 12" up to 98" long

PRECISION CO-EX SHEETING FOR PRINTERS & LAMINATORS

Regency Plastics offers precision sheeting products tailored for printers & laminators, ensuring optimal material preparation for downstream processes.

CAPABILITIES

- Custom sheeting of up to 80" to meet specific requirements.
- Perfect roll formation and gauge consistency.
- Compatibility with a variety of laminating materials.

APPLICATIONS

- Laminated packaging for durability.
- Films for high speed presses.
- Custom solutions for specialized printing laminating needs.

WHY CHOOSE US?

- Advanced sheeting equipment for flawless results.
- Experienced team ensuring the quality you need.
- Commitment to delivering on-time and within budget.

OUR IN-LINE PRINTING DEPARTMENT

Regency specializes in up to 6 colour random and registered in-line printing for PTO bags, loose bags, sheeting, and tubing

- Up-to 6 colour combinations for bags, tubing, and sleeves; 5 + 1, 4 + 2, 3 + 3
- Up-to 3 colours for lay-flat sheeting
- Print imagery width of up to 82.5"
- Gusset print & K-seal for shipping sacks
- In-line registered print for bags both on rolls and loose

EXCELLENCE IN OUT-OF-LINE FLEXOGRAPHIC PRINTING

Regency Plastics utilizes advanced flexographic printing techniques to deliver cost-effective, high-quality prints for large-scale production runs.

CAPABILITIES

- High-resolution 8 color printing for detailed graphics.
- Fast turnaround times.
- One stop solution- Extrusion, Printing, Converting all under one roof.
- Print imagery width of up to 55", film width up to 57"

APPLICATIONS

Flexible packaging for-

- Food and beverages
- Bakery bags
- Heavy duty shipping sacks
- Form & fill
- Printed courier bags

WHY CHOOSE US?

- Expertise in handling complex designs.
- Use of durable, UVI fade-resistant inks.
- Environmentally conscious printing practices.

A hand in a light blue sleeve holds a white smiley face icon with two dots for eyes and a curved line for a mouth. The background is a blurred image of hands holding a similar smiley face.

Our helpful staff, friendly customer service representatives, and competitive pricing help us provide the best polyethylene packaging solutions for your business

 Thousands of satisfied customers
